

Ivan Foschiera

Operations & Engineering Leader

ivan@foschiera.com · +31 6 8638 2315 · foschiera.com · linkedin.com/in/ivanfoschiera · The Randstad, Netherlands

PROFESSIONAL SUMMARY

Operations & Engineering Leader with 20+ years building operations that perform under pressure across hyperscale tech, manufacturing, and high-volume intralogistics in Europe and Brazil. Designs systems that make operations predictable, financially efficient, and stable at scale — spanning plant leadership, Lean & continuous improvement, MES/ERP digital operations, analytics, and people development.

KEY RESULTS

70% → 99.7%

First Pass Yield

7h → 2h

WIP cycle time reduction

4 → 40+

Team scaled from scratch

500+

Max site headcount managed

Additional recognition: Leader 100 Award — 2022 & 2023 (World Wide Technology, 100% team acceptance); multi-site MES rollout improving traceability, planning accuracy, and stakeholder visibility; maintained full SLA at a 500-person site through COVID via rapid staffing scenarios and daily risk control.

PROFESSIONAL EXPERIENCE

Senior Production Manager

Nov 2021 – Dec 2025

World Wide Technology · The Randstad, Netherlands · Team: 70+

Led end-to-end production and engineering in a high-volume integration center with full accountability for safety, quality, delivery, cost, and execution stability.

- First Pass Yield from 70% to 99.7% through Lean routines, layout changes, and 5S discipline
- Built stable tier cadence: daily Gemba, escalation protocols, KPI reviews with stakeholders
- Rolled out MES across sites — improved traceability, visibility, and planning accuracy
- Introduced dashboards for forecast, WIP, constraints, and stakeholder reviews, enabling faster decisions and better cost control
- Coached supervisors, strengthened succession, and improved leadership retention

Site Manager

Nov 2019 – Oct 2021

Material in Motion · The Randstad, Netherlands · Team: 500+

Led a 500-person production site delivering data center hardware for a hyperscale technology client under strict SLA, audit, and security requirements.

- WIP from 7h to 2h — freed significant working capital through pull-based JIT
- Maintained full SLA during COVID through rapid staffing scenarios and daily risk control
- Stabilized quality and delivery through standard work, tier routines, and escalation discipline
- Aligned engineering, logistics, and client leadership across cross-functional execution

Supply Chain Integration Manager

Jun 2018 – Oct 2019

Material in Motion · The Randstad, Netherlands

- Streamlined end-to-end handoffs between inbound, kitting, production, and outbound
- Supported ERP transition for a global technology client and improved adoption
- Reduced firefighting through clear ownership rules and escalation visibility

Inventory Control Supervisor

Aug 2016 – May 2018

Material in Motion · The Randstad, Netherlands

- Implemented real-time tracking and improved inventory accuracy to world-class levels
- Strengthened collaboration across warehouse, production, and planning

General Manager

Sep 2006 – Dec 2014

Milimetra · Greater Florianópolis, Brazil

- Scaled company from 4 to 40+ people delivering complex aluminum and glass structures
- Owned operations, planning, and financial performance end-to-end
- Built leader routines that improved reliability, delivery, and team capability

Production Technician

Feb 2002 – Aug 2006

Milimetra · Greater Florianópolis, Brazil

Hands-on technical foundation across end-to-end production: precision machinery, fabrication, quality control, and structural builds. The shopfloor experience that shaped his leadership philosophy.
