PROFILE

Manufacturing and operations leader with **20+ years** across hyperscale hardware, data center infrastructure, manufacturing, and intralogistics in Europe and Brazil. Led **teams of 70 to 500+ people** with accountability for safety, quality, delivery, cost, and engineering execution. Builds operating routines, leadership teams, and data systems that improve quality and flow. Experience spans contract manufacturing, infrastructure recovery, MES and ERP implementation, supplier and 3PL management, and full P&L ownership.

SELECTED IMPACT

70% → 99.7%
First Pass Yield
Lean routines, layout redesign & 5S discipline at WWT's high-volume integration center

7h → 2h
Line-Side Inventory Coverage
Less line-side stock to search through and count at a 500-person hyperscale site

4 → 40+
Fabrication Business
Built from scratch as founder - full P&L across operations, quality & client delivery

PROFESSIONAL EXPERIENCE

Manager, Rack Production · Supermicro

Nov 2026 - Present

Focused on developing European rack-integration capability for data center and AI infrastructure, working with global engineering and operations teams.

- Developing the team through recruitment, onboarding and technical training across inventory, technician and engineering functions.
- Aligning processes and knowledge transfer with global rack-integration teams.
- Coordinating with engineering and service teams to connect factory integration with customer-site deployment support.

Team Manager, DC Operations - Infrastructure · Leaseweb

Sep 2026 - Oct 2026

Led the infrastructure team within data center operations, combining technical delivery, people development and cross-functional coordination.

- Coordinated the **recovery of hundreds of servers across multiple racks** in approximately one month.
- Built a **shared recovery tracker** with milestones and per-server progress, giving engineers and senior leadership a consistent view of the work.
- Established weekly one-to-ones and regular feedback focused on development, engagement and clear ownership.
- Identified and recommended improvements in onboarding, cross-training, standard work and visual management.

Senior Production Manager · World Wide Technology

Nov 2021 - Dec 2025 · Amsterdam, Netherlands · Team: 70+

- Ran production and engineering for server, storage, and networking hardware serving global hyperscale clients, with full operational and financial accountability.
- Raised **First Pass Yield from 70% to 99.7%** through line redesign, 5S, standard work, and structured root cause analysis.
- Built **daily Gemba, shift handover, escalation, and KPI routines** with senior client engineering and supply chain stakeholders.
- Delivered a **multi-site MES rollout** for end-to-end traceability and real-time visibility; built dashboards for forecast accuracy, WIP, bottlenecks, and leadership performance.
- Developed leaders through coaching, development plans, and succession mapping. Received the **Leader 100 Award in 2022 and 2023** with a 100% team acceptance score.

Site Manager · Material in Motion

Nov 2019 - Oct 2021 · Amsterdam, Netherlands · Team: 500+

- Led a **500-person site** assembling and configuring hyperscale data center hardware under strict SLAs, security clearance, and continuous quality audits.
- Reduced **line-side inventory coverage from 7 hours to 2 hours** by aligning production, client logistics, and the 3PL around complete orders within one hour.
- Maintained **100% SLA continuity through COVID-19** with workforce restructuring, daily risk reviews, and layout changes, with no client penalties or revenue impact.
- Established cross-functional governance, standard work, tier meetings, and a frontline leadership team able to run all shifts independently.

PROFESSIONAL EXPERIENCE CONTINUED

Supply Chain Integration Manager · Material in Motion

Jun 2018 - Oct 2019 · Amsterdam, Netherlands

- Led integration across **3PL partners, production, and outbound logistics**, with accountability for flow continuity, working capital efficiency, and on-time SLA delivery.
- Redesigned material handoffs and resolved supplier and planning escalations through clear ownership and daily controls.
- Led operational integration through a **client ERP transition**, mapping workflows and training teams to protect continuity and data integrity.

Inventory Control Supervisor · Material in Motion

Aug 2016 - May 2018 · Amsterdam, Netherlands

- Led **inventory accuracy, material availability, cycle counts, and variance management** in a high-velocity production and logistics environment.
- Deployed real-time inventory tracking, root cause analysis, and daily warehouse-production-planning routines to reduce stock-driven stoppages, discrepancies, and excess safety stock.

IT Support Specialist, Operations Systems · Milimetra

Jan 2015 - Jun 2016 · Remote · Contract

- Provided **remote IT support for around 40 users** during relocation to the Netherlands, maintaining access, endpoints, and essential operational tools for the team in Brazil.

General Manager · Milimetra

Sep 2006 - Dec 2014 · Greater Florianópolis, Brazil

- Founded and scaled an aluminum and glass structural installation business from **4 to 40+ people, with full P&L ownership** across operations, quality, and client delivery.
- Managed planning, fabrication, installation, and inspection across concurrent projects; established performance standards and management routines, and resolved technical constraints with engineers and clients.

Production Technician · Milimetra

Feb 2002 - Aug 2006 · Greater Florianópolis, Brazil

- Operated precision fabrication machinery across assembly, quality inspection, and structural builds, working alongside engineers and site installers on large-scale projects.

RECOMMENDATION

> *"Great leaders teach you skills, but the exceptional ones shape how you think and how you lead. Ivan is one of those rare leaders. Under his leadership, I learned a great deal about production management, operational discipline, and leadership in high-performance environments. More importantly, I learned valuable lessons about integrity, humility, and staying grounded while growing in your career."*

CREDENTIALS & AWARDS

Education

BBA International Business - Amsterdam UAS (AMSIB)
2024 - In progress

Certifications

- Lean Six Sigma Green Belt
- CompTIA IT Fundamentals+
- TOEFL iBT - C1 English (Aug 2024)
- Amateur Radio Licence HAREC - PA9ICQ (Jan 2026)

Languages

Portuguese - Native · English - Full professional (C1)

Awards

Leader 100 Award - World Wide Technology
2022 & 2023 - 100% team acceptance as a leader
Highest possible trust score awarded by WWT to a leader.

Core Skills

Lean & CI · MES · ERP · Gemba · 5S · JIT & Pull Systems · Standard Work · Tier Management · KPI Dashboards · Client Governance · SQDC · Traceability · 3PL Management · Leader Coaching · Analytics · AI-assisted Operations

Volunteering

Independent Research Lead - Sosarian
Jan 2026 - Present · AI, assistive technology & human behavior research
